

2 February 2010

Hi Glen

Thanks for all your help and information with regards to the Solar Heating Geyser. Its rare to find someone in a company who is so helpful and friendly!

I would like to go ahead and book for the installation but I am going on leave today and will only be back in Cape Town on 15 February 2010. So, would appreciate if the solar system can be done anytime that particular week.

If you confirm the date by e-mail, need to know before 3.00pm today but if by cell, can be anytime.

Regards.
MICHELE
